

SIFLON

Drugs & Pharmaceuticals Pvt. Ltd.

ABOUT US

Founded in 1996 by Mr. R.Ananthaiah, as a small scale PTFE component manufacturing industry, we've gradually diversified into different sectors. Today, our operations span 5 major areas: Manufacture of Veterinary APIs (Siflon Drugs), Veterinary Formulations (Siflon Drugs & Pharmaceuticals Pvt. Ltd.), Veterinary Pharmaceutical Franchisee Outlets (Siflon Vet Pharma), PTFE components (Siflon Polymers), Reactors (Siflon Engineering) and Aloe vera products (Aloewell Herbals).

Backward and forward integration has been the key to diversify into different sectors. The founder being a chemical engineer, always had a zeal to establish chemical industry and started Siflon Drugs for the manufacture of veterinary APIs. The company pursued a strategy of backward integration – in reactor, PTFE lined components manufacturing and forward integration – in veterinary formulations and franchisee outlets to market the veterinary medicines.

The Quality and Commitment are the pillars of our company. Our company's motto is 'Quality is our strength' and we believe that it had been the promising reason for the company's progress. Thus, At Siflon, QUALITY comes first.

Though our company established in different sectors, the main focus had always been on the manufacture of APIs. The existing manufacturing capacity of our industry is 350 tons of APIs per annum. We are planning for expansion at new premises, with an estimated manufacturing capacity of 1000 tons of APIs per annum.

SIFLON DRUGS & PHARMACEUTICALS

SIFLON DRUGS & PHARMACEUTICALS PVT LTD, a subsidiary of Siflon Group, started in the year 2006 with a vision to provide good quality animal healthcare products. We offer a variety of products with 3 regards to animal health, especially for farm animals such as sheep, goat, cattle and swine. We provide an outstanding technical support and service to animal farmers as well as their veterinarians in India, to ensure the safety and improve the quality and productivity of their livestock.

Our goal is to become one of the most reliable companies with regards to the veterinary formulations. We want to be known as a company that is furthering animal health, with good quality products at affordable prices. Our company is in the process of launching new products to strengthen our portfolio and establish a base to launch our products in different countries. We aspire to develop new products and medicines that will address significant unmet medical needs of both companion and farm animals.

Albendazole Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Albendazole 25 mg
- Indications:** It is an intestinal anthelmintic, for the treatment of roundworms, tapeworms and liver flukes on cattle, buffaloes, sheep, goats, pigs & poultry.
- Volume:** 50ml, 100ml, 500ml, 1000ml

Albendazole & Levamisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Albendazole 20 mg
Levamisole Hcl 15 mg
- Indications:** It is an intestinal anthelmintic, for the treatment of roundworms, tapeworms and liver flukes on cattle, buffaloes, sheep, goats, pigs & poultry.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Albendazole & Niclosamide Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Albendazole 30 mg
Niclosamide 100 mg
- Indications:** It is an intestinal anthelmintic, for the treatment of roundworms, tapeworms, rumen flukes and liver flukes on Cattle, Sheep, Goats, poultry & pig.
- Volume:** 250ml, 500ml, 1000ml

Albendazole & Oxytocanide Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Albendazole 25 mg
 Oxytocanide 25 mg
- Indications:** It is an anthelmintic, for the treatment of liver flukes and other worms on Cattle, Sheep & Goats.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Albendazole & Rafoxanide Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Albendazole 25 mg
 Rafoxanide 22.7 mg
- Indications:** It is an anthelmintic, for the treatment of liver flukes, amphistomes and other worms on Cattle, Sheep & Goats.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Albendazole & Tetramisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Albendazole 20 mg
 Tetramisole HCl 15 mg
- Indications:** It is an anthelmintic, for the treatment of liver flukes, other worms and gastrointestinal nematodes on Cattle, Sheep & Goats.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Closantel Solution

- Category:** Anthelmintic
- Composition:** Each ml contains Closantel 50 mg, 150 mg
- Indications:** It is an anthelmintic, for the treatment of flukes, round worms and myiases on Cattle, Sheep & Goats.
- Volume:** 50ml, 100ml, 250ml, 500ml, 1000ml

Enrofloxacin Solution

- Category:** Anti-bacterial
- Composition:** Each ml contains Enrofloxacin 100 mg
- Indications:** It is an anti-bacterial, for the treatment of mycoplasma infections and bactericidal diseases on Cattle, Goat, Sheep & Poultry.
- Volume:** 50ml, 100ml, 250ml, 500ml, 1000ml

Enrofloxacin & Bromhexine HCl Solution

- Category:** Anti-bacterial
- Composition:** Each ml contains Enrofloxacin 200 mg
Bromhexine HCl 15 mg
- Indications:** It is an anti-bacterial, for the treatment of severe respiratory infection, mycoplasmaosis and coryza on Cattle, Goat & Sheep.
- Volume:** 50ml, 100ml, 250ml, 500ml, 1000ml

Fenbendazole Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains Fenbendazole 25 mg
- Indications:** It is an anthelmintic, for the treatment of gastrointestinal nematodes, tapeworms, lung worms, liver flukes on cattle, buffaloes, sheep, goats, horses & pigs.
- Volume:** 100ml, 500ml, 1000ml

Fenbendazole & Praziquantel Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains Fenbendazole 15 mg Praziquantel 5 mg
- Indications:** It is an anthelmintic, for the treatment of cestodes, trematodes, tapeworms, lung worms, liver flukes in cattle, buffaloes, sheep, goats, horses & pigs
- Volume:** 500ml, 1000ml

Ivermectin Solution

- Category:** Anthelmintic
- Composition:** Each ml contains Ivermectin 0.8 mg
- Indications:** It is an anthelmintic, acts as an antiparasitic agent for gastrointestinal and pulmonary roundworms on cattle, sheep, goats, poultry, pigs and dogs.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Niclosamide & Levamisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Niclosamide 100 mg
 Levamisole HCl 15 mg
- Indications:** It is an anthelmintic, used to treat worm infestations, Parasite drug for fowl and livestock and as a dewormer on cattle, sheep and pigs
- Volume:** 500ml, 1000ml

Oxyclozanide Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Oxyclozanide 34 mg
- Indications:** It is an anthelmintic, used in the treatment of nematodes, fascioliasis, amphistomes, paramphistomes and tape worms on cattle, buffaloes, sheep and goats.
- Volume:** 100ml, 500ml, 1000ml

Oxyclozanide & Levamisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
 Oxyclozanide 30 mg, 60mg
 Levamisole HCl 15 mg, 30 mg
- Indications:** It is an anthelmintic, treatment of gastrointestinal and lungworm infections on cattle, calves, sheep and goats.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Oxyclozanide & Tetramisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Oxyclozanide 30 mg
Tetramisole HCl 15 mg
- Indications:** It is an anthelmintic, used in the treatment of nematodes, amphistomes, paramphistomes, tape worms and filariasis on cattle, buffaloes, sheep, goats & horses.
- Volume:** Volume: 100ml, 250ml, 500ml, 1000ml

Rafoxanide Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Rafoxanide 30 mg
- Indications:** It is an anthelmintic, used for the treatment of Fasciola flukes, round worms on Calf, Cattle, Buffaloes, Sheep & Goat.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Rafoxanide & Levamisole HCl Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Rafoxanide 15 mg, 30 mg
Levamisole HCl 15 mg, 30 mg
- Indications:** It is an anthelmintic, used for the treatment of nematode infection, Fasciola flukes, round worms on Calf, Cattle, Buffaloes, Sheep & Goat.
- Volume:** 100ml, 250ml, 500ml, 1000ml

Rafoxanide & Ivermectin Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Rafoxanide 30 mg
Ivermectin 1 mg
- Indications:** It is an anthelmintic, acts as an antiparasitic agent, parasitic worms, roundworms on cattle, sheep, goats, poultry, pigs and dogs.
- Volume:** 500ml, 1000ml

Triclabendazole Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Triclabendazole 50 mg
- Indications:** It is an anthelmintic, used for flukicide, endoparasites, immature liver flukes, on cattle, sheep, goats.
- Volume:** 100ml, 250ml, 500ml, 1000ml.

Triclabendazole & Ivermectin Suspension

- Category:** Anthelmintic
- Composition:** Each ml contains
Triclabendazole 50 mg
Ivermectin 1 mg
- Indications:** It is an anthelmintic, used for flukicide, endoparasites, liver flukes, parasitic worms, gastrointestinal and pulmonary roundworms on cattle, sheep, goats and pigs
- Volume:** 100ml, 250ml, 500ml, 1000ml

Triclabendazole & Levamisole HCl Suspension

**Category:**

Anthelmintic

Composition:

Each ml contains

Triclabendazole 50 mg

LevamisoleHCl 37.5 mg

Indications:

It is an anthelmintic, used as flukicide, endoparasites, Gastrointestinal, pulmonary roundworms, liver flukes on cattle, sheep, goats, poultry, pigs and dogs.

Volume:

100ml, 250ml, 500ml, 1000ml

Veterinary Formulations

Albendazole

Category:

Anthelmintic

Composition:

Each tablet/bolus contains

Albendazole 150mg; 300mg; 600mg
1500mg; 2500mg; 3000mg

Indications:

It is an intestinal anthelmintic, for the treatment of roundworms, tapeworms and liver flukes on cattle, buffaloes, sheep, goats, poultry & pig.

Pack Size :

20 x 10's (Tablets), 10 x 4's (Bolus)

Ciprofloxacin & Tinidazole

Category:

Anti-bacterial

Composition:

Each Bolus contains
Ciprofloxacin 1500mg
Tinidazole 1800mg

Indications:

It is an anti-bacterial, for the treatment parasitic, protozoal and bacterial infections in cattle, goat and sheep.

Pack Size :

20 x 4's

Closantel

Category:

Anthelmintic

Composition:

Each Bolus contains
Closantel 1000 mg

Indications:

It is an anthelmintic, for the treatment of flukes, round worms and myiases on Cattle, Sheep & Goat.

Pack Size :

20 x 4's

Fenbendazole

- Category:** Anthelmintic
- Composition:** Each tablet/bolus contains Fenbendazole 150 mg; 1500mg; 3000mg
- Indications:** It is an anthelmintic, for the treatment of gastrointestinal nematodes, tapeworms, lung worms, amphistomes & liver flukes on cattle, buffaloes, sheep, goats & pigs
- Pack Size :** 10 x 10's, 20 x 4's

Fenbendazole & Praziquantel

- Category:** Anthelmintic
- Composition:** Each tablet contains Fenbendazole 150 mg
Praziquantel 50 mg
- Indications:** It is an anthelmintic, used for treatment of tapeworms, lung worms, amphistomes & liver flukes on cattle, buffaloes, sheep, goats, pigs
- Pack Size :** 20 x 10's,

Fenbendazole, Praziquantel & Pyrantel Pamoate

- Category:** Anthelmintic
- Composition:** Each tablet contains Fenbendazole 500 mg
Praziquantel 50 mg
Pyrantel Pamoate 144 mg
- Indications:** It is an anthelmintic, used as a treatment of tapeworms, hookworms, roundworms, lung worms on cattle, buffaloes, sheep, goats, pigs & horses.
- Pack Size :** 20 x 10's

Furazolidone

- Category:** Anti bacterial and Anti protozoal
- Composition:** Each tablet contains Furazolidone 200 mg
- Indications:** It is an antibacterial, with wide range of antimicrobial activity And acts on salmonids for Myxobolus cerebralis infections in cattle, buffaloes, sheep, goats.
- Pack Size :** 20 x 10's

Ivermectin

- Category:** Anthelmintic
- Composition:** Each tablet contains Ivermectin 10 mg
- Indications:** It is an anthelmintic, acts against parasitic worms, gastrointestinal and pulmonary roundworms on animals like cattle, sheep, goats, poultry, pigs and dogs.
- Pack Size :** 20 x 10's

Levamisole HCl

- Category:** Anthelmintic
- Composition:** Each tablet contains Levamisole 150 mg
- Indications:** It is an anthelmintic, used for the treatment of nematode infections, Gastrointestinal tract infections in cattle, goat, sheep, poultry, pigs and dogs.
- Pack Size :** 10 x 10's

Meloxicam & Paracetamol

- Category:** Analgesic and anti-inflammatory
- Composition:** Each Bolus contains
Meloxicam 100 mg
Paracetamol 1500 mg
- Indications:** It is an analgesic, anti-inflammatory, for the treatment of acute and chronic inflammation associated with musculoskeletal disease and other minor aches and pains and is a major ingredient in numerous cold and flu remedies.
- Pack Size :** 20 x 4's

Metronidazole & Furazolidone

- Category:** Anti bacterial and anti protozoal
- Composition:** Each Bolus contains
Metronidazole 1000 mg
Furazolidone 200 mg
- Indications:** It is an Anti bacterial & anti protozoal, used in the treatment of diarrhea or enteritis, fever, cholera, protozoal disease and inflammatory bowel disease in cattle, sheep
- Pack Size :** 20 x 4's

Metronidazole, Furazolidone & Loperamide

- Category:** Anti bacterial and anti protozoal
- Composition:** Each Bolus contains
Metronidazole 1000 mg
Furazolidone 500 mg
Loperamide 7.5 mg
- Indications:** It is an Anti bacterial & anti protozoal, used in the treatment of diarrhea or enteritis, fever, cholera, protozoal disease and inflammatory bowel disease in cattle, sheep
- Pack Size :** 20 x 4's

Nicosamide

- Category:** Anthelmintic
- Composition:** Each Bolus contains Nicosamide 1000mg; 1250 mg
- Indications:** It is an anthelmintic, for the treatment of tapeworms, intestinal flukes, tapeworms in sheep, goat, cattle, poultry.
- Pack Size :** 20 x 4's

Oxyclozanide

- Category:** Anthelmintic
- Composition:** Each Bolus contains Oxyclozanide 1000 mg
- Indications:** It is an anthelmintic, used in the treatment of nematodes, fascioliasis, amphistomes, paramphistomes and tape worms on cattle, buffaloes, sheep and goats.
- Pack Size :** 20 x 4's

Oxyclozanide & LevamisoleHcl

- Category:** Anthelmintic
- Composition:** Each Bolus contains Oxyclozanide 1000mg
Levamisole HCl 500mg
- Indications:** It is an anthelmintic, treatment of gastrointestinal and lungworm infections in cattle, calves, sheep and goats.
- Pack Size :** 20 x 4's

Oxytetracycline HCl

- Category:** Anti-bacterial
- Composition:** Each Tablet contains Oxytetracycline HCl 500mg
- Indications:** It is an anti- bacterial, used in the treatment of gram positive and gram negative bacteria and gastro-intestinal infections in poultry, sheep and cattle.
- Pack Size :** 20 x 10's

Pefloxacin

- Category:** Anti bacterial
- Composition:** Each Tablet contains Pefloxacin 400mg
- Indications:** It is an anti-bacterial, active against both gram positive and gram negative bacteria, mycoplasma infections of cattle, sheep, poultry, pigs.
- Pack Size :** 20 x 10's

Sulphadiazine & Trimethoprim

- Category:** Anti-bacterial
- Composition:** Each Bolus contains Sulphadiazine 1000mg
Trimethoprim 200mg
- Indications:** It is an anti-bacterial, used for respiratory tract and wound infections on cattle, sheep, poultry.
- Pack Size :** 20 x 4's

Sulphadimidine

- Category:** Anti-bacterial
- Composition:** Each Bolus contains Sulphadimidine 5000mg
- Indications:** it is an anti-bacterial, used for the treatment of bacterial, protozoal and certain rickettsial organisms in sheep, goat, cattle, calves, poultry and pigs.
- Pack Size :** 10 x 4's

Triclabendazole

- Category:** Anthelmintic
- Composition:** Each Tablet/Bolus contains Triclabendazole 250mg; 900mg
- Indications:** It is an anthelmintic, used for the treatment of flukicide, endoparasites, liver flukes on cattle, sheep, goats.
- Pack Size :** 10 x 10's, 20 x 4's

Enrofloxacin

- Category:** Anti- bacterial
- Composition:** Each Tablet contains Enrofloxacin 50 mg, 500 mg
- Indications:** It is an anti- bacterial, for the treatment of mycoplasma infections and bactericidal diseases on Cattle, Goat & Sheep.
- Pack Size :** 20 x 10's

Veterinary Formulations

Albendazole

- Category:** Anthelmintic
- Composition:** Each gm contains Albendazole 50mg
- Indications:** It is an intestinal anthelmintic, for the treatment of roundworms, tapeworms and liver flukes on cattle, buffaloes, sheep, goats, pig & poultry.
- Pack Size :** 300gm

Ciprofloxacin

- Category:** Anti-bacterial
- Composition:** Each gm contains Ciprofloxacin 100mg
- Indications:** It is an anti-bacterial, used against gram positive and gram negative bacterial infections, respiratory tract infections on cattle, sheep and poultry.
- Pack Size :** 100gm

Ciprofloxacin & Tinidazole

- Category:** Anti-bacterial
- Composition:** Each gm contains Ciprofloxacin 100mg
Tinidazole 120mg
- Indications:** It is an anti-bacterial, for the treatment of respiratory tract, gastro-intestinal, urogenital tract infections in cattle, sheep poultry.
- Pack Size :** 100gm

Doxycycline & Neomycin

- Category:** Anti-bacterial
- Composition:** Each gm contains
Doxycycline 100mg
Neomycin 100mg
- Indications:** It is an anti-bacterial, used for respiratory, gastro-intestinal and fungal infections on Cattle, goat, Sheep and poultry
- Pack Size :** 100gm

Fenbendazole

- Category:** Anthelmintic
- Composition:** Each gm contains
Fenbendazole 250mg
- Indications:** It is an anthelmintic, for the treatment of gastrointestinal nematodes, tapeworms, lung worms, amphistomes & liver flukes on cattle, buffaloes, sheep, goats & pigs
- Pack Size :** 120gm

Levamisole HCl

- Category:** Anthelmintic
- Composition:** Each gm contains
Levamisole HCl 300mg
- Indications:** It is an anthelmintic, used for the treatment of nematode infections, dewormer, gastrointestinal tract infections in cattle, goat, sheep, poultry, pigs and dogs.
- Pack Size :** 100gm, 500gm, 1000gm

Niclosamide

- Category:** Anthelmintic
- Composition:** Each gm contains Niclosamide 750mg
- Indications:** It is an anthelmintic, active against tapeworms and intestinal flukes, tapeworms in sheep, goat, cattle, poultry.
- Pack Size :** 100gm

Norfloxacin

- Category:** Anti-bacterial
- Composition:** Each gm contains Norfloxacin 100mg
- Indications:** It is an antibacterial, for respiratory tract infections, skin & tissue infections, urogenital tract infections, gastrointestinal tract infections on sheep and poultry.
- Pack Size :** 100gm

Ofloxacin

- Category:** Anti-bacterial
- Composition:** Each gm contains Ofloxacin 100mg
- Indications:** It is an anti-bacterial, used for bacterial, mycobacterial infections, respiratory diseases, gastro-intestinal and urinary-tract infections on Cattle, goat, Sheep, fowl, pigs.
- Pack Size :** 100gm

Oxyclozanide & Levamisole HCl

- Category:** Anthelmintic
- Composition:** Each gm contains
 Oxyclozanide 333.33mg
 LevamisoleHCl 166.67mg
- Indications:** It is an anthelmintic, treatment of gastrointestinal and lungworm infections in cattle, calves, sheep and goats.
- Pack Size :** 6gm, 50gm, 100gm

Oxytetracycline HCl & Neomycin

- Category:** Anti-bacterial
- Composition:** Each gm contains
 OxytetracyclineHCl 50mg
 Neomycin 50mg
- Indications:** It is an anti-bacterial, used for respiratory, gastro-intestinal, urinary-tract infections and protozoal infections on Cattle, goat, Sheep and poultry.
- Pack Size :** 100gm

Sulphamethoxazole & Trimethoprim

- Category:** Anti-bacterial
- Composition:** Each gm contains
 Sulphamethoxazole 100 mg
 Trimethoprim 20 mg
- Indications:** It is an anti-bacterial, for the treatment of bacterial, respiratory infections & enteritis on sheep, goat and cattle.
- Pack Size :** 100gm

Tetracycline HCl

- Category:** Anti-bacterial
- Composition:** Each gm contains Tetracycline HCl 50 mg, 112 mg
- Indications:** It is an anti-bacterial, for the treatment of respiratory, gastro-intestinal, genital and urinary tract infections in cattle, sheep & poultry.
- Pack Size :** 100gm
